

FIRST ANNOUNCEMENT

International Symposium on the Introduction of Fuel Cell System to Early Markets

Date: July 13th and 14th 2010

Location: Ulm, Germany

SCOPE AND OBJECTIVES OF THE SYMPOSIUM

The symposium aims at discussing on an international level the following socio-economical and technical aspects related to:

- National strategies of different IPHE member countries to support market preparation and market introduction of fuel cells
- Socio-economical and technical aspects of a wide deployment of stationary fuel cells
- Current market barriers, market requirements and status Quo
- Fuel logistics
- Tools & best practice for design, installation and operation
- Public awareness and training needs
- Standardization, regulation and technical guidelines

Oral presentations will be given on invitation. *Poster presentations* on special topics will be arranged.

A *panel discussion* will close the symposium, and will suggest future directions in supporting the deployment of fuel cells.

WHO SHOULD ATTEND

The symposium is targeted at end users, developers, and scientists from industry and academia and particularly at the users of these plants like energy suppliers, at decision makers from communities, authorities and standardization bodies.
